MS DEGREE PROGRAMS IN PROJECT MANAGEMENT

2 YEARS

PROJECT MANAGEMENT

CORE OBJECTIVE

The core objective of an MS program in Project Management Science is to equip students with the knowledge, skills, and tools required to effectively plan, execute, and manage projects across various industries. The program aims to develop expertise in project management methodologies, leadership, risk assessment, communication, and stakeholder management.

COURSE CONTENTS

The specific course contents can vary, but typical courses in an MS in Project Management Science program might include:

- ▶ Project Planning and Scheduling
- ▶ Project Execution and Control
- ▶ Risk Management in Projects
- ▶ Project Leadership and Team Management
- ▶ Project Communication and Stakeholder Management
- ▶ Project Quality Management
- ▶ Project Cost and Budget Management
- ▶ Project Procurement and Contract Management
- ▶ Project Scope Management
- ▶ Agile Project Management
- ▶ Project Management Tools and Software

Recognized by:

Higher Education Commission of Pakistan

The **BRAINS** Institute Peshawar as a degree awarding institute recognized by HEC .

Chartered by:

Govt: of Khyber Pakhtunkhwa

ADMISSION ELIGIBILITY

- A bachelor's degree from recognized universities with a minimum of 16 years of education and a specified GPA or CGPA.
- Supplementary documents such as transcripts, letters of recommendation, and a statement of purpose are typically required.
- Some programs may also mandate achieving a qualifying score on a relevant standardized test like the GRE, and an interview might also be part of the process.

EXAMS AND CLASSES

Students in an MS program can expect to attend regular classes, engage in group projects, case studies, and simulations relevant to project management. Exams and assessments will be conducted to evaluate your understanding of project management concepts and their practical application.

AWARD OF DEGREE PROCESS

To be awarded an MS degree in Project Management Science , students need to complete all required coursework, maintain a certain GPA, and possibly complete a capstone project or thesis. The exact requirements can vary depending on the program.

SEMESTERS AND CREDIT HOURS

MS program spans two years, divided into multiple semesters. Each semester consists of a set of courses worth a certain number of credit hours. A typical program might have around 30 to 36 credit hours in total.

CAREER PATH

Graduates of an MS in Project Management Science program can pursue various career paths, such as:

- Project Manager
- Program Manager
- Project Coordinator
- Project Analyst
- Risk Manager
- Construction Manager
- IT Project Manager
- Consulting in Project Management
- Operations Manager

ADMISSION ELIGIBILITY

Candidates who have completed their intermediate education (12 years of schooling) or equivalent are eligible to apply for admission.
